

Goodfind Lane.

Toy Storage Measuring Sheet

Measure usable space, then test access. Use inches throughout.

01 Start with the space you have

Room / storage spot

Date

Clear width (in)

Usable depth (in)

Usable height (in)

02 Compare the exact unit and container

Unit / exact model

Unit width (in)

Unit depth (in)

Unit height (in)

Largest toy / build: width x depth x height (in)

Container usable inside dimensions (in)

03 Test the room in use

- ☐ Bin comes fully out; nearby doors still open.
- ☐ Walking route and play space remain usable.
- ☐ Exact installation and securing instructions checked.

Planning aid, not an installation guide. Follow the exact furniture instructions, including anchoring. An outside measurement does not establish usable container space.
